Some lots have been filled, in whole or in part. Intending purchasers should satisfy themselves of any requirements that Council/Private Certifying Authority may have in relation to building on these lots.

2. Lot dimensions

The dimensions shown on the Sales Plan are indicative only. Detailed lot dimensions are shown on the draft plan of subdivision, which is attached to the Land Sales Contract.

3. Restrictions on use of the lots

To ascertain the uses permitted on the lots and controls on development of the lots it is recommended that intending purchasers make enquiries at Council and/or undertake your own planning assessment. In addition, Council will be able to advise as to whether any development applications have been lodged in respect of nearby lands. Any person is able to inspect Council's register of development applications. Certain restrictions on the use of the land can be found in the instrument created at the time of registration of the plan of subdivision under Section 88B of the NSW Conveyancing Act, 1919. Where applicable, a copy of the Section 88B instrument is attached to the Land Sales Contract.
